

Christmas Bingo

Game Preparation:

- Print out enough bingo cards for each player, making sure each player has a different playing card.
- Print and cut out enough tokens for each player to have 25 tokens.
- Print and cut out all of the calling cards and place them in a container.

How to Play:

- Give each player one bingo card and 25 tokens.
- Have each player place a token over the "free" space on his/her bingo card.
- Mix up the calling cards well in the container.
- One by one, draw out a calling card, showing the picture to the players and saying its name. Set these cards aside; don't put them back in the container.
- As each calling card is shown and called out, have each player find that same picture on their bingo cards and place a token over that picture. Because there are 30 calling cards and only 24 pictures on each bingo card, all players will not have all the pictures on their cards.
- Once a player has a whole row of tokens (either horizontally or vertically), he/she can say "bingo", thereby winning the game. Make sure to check his/her card to see that his/her tokens are on the pictures that you called out. If he/she made a mistake, continue the game until a player has correctly placed tokens on a whole row of pictures.
