

The Prewriting Worksheets Series

Left Diagonal Lines

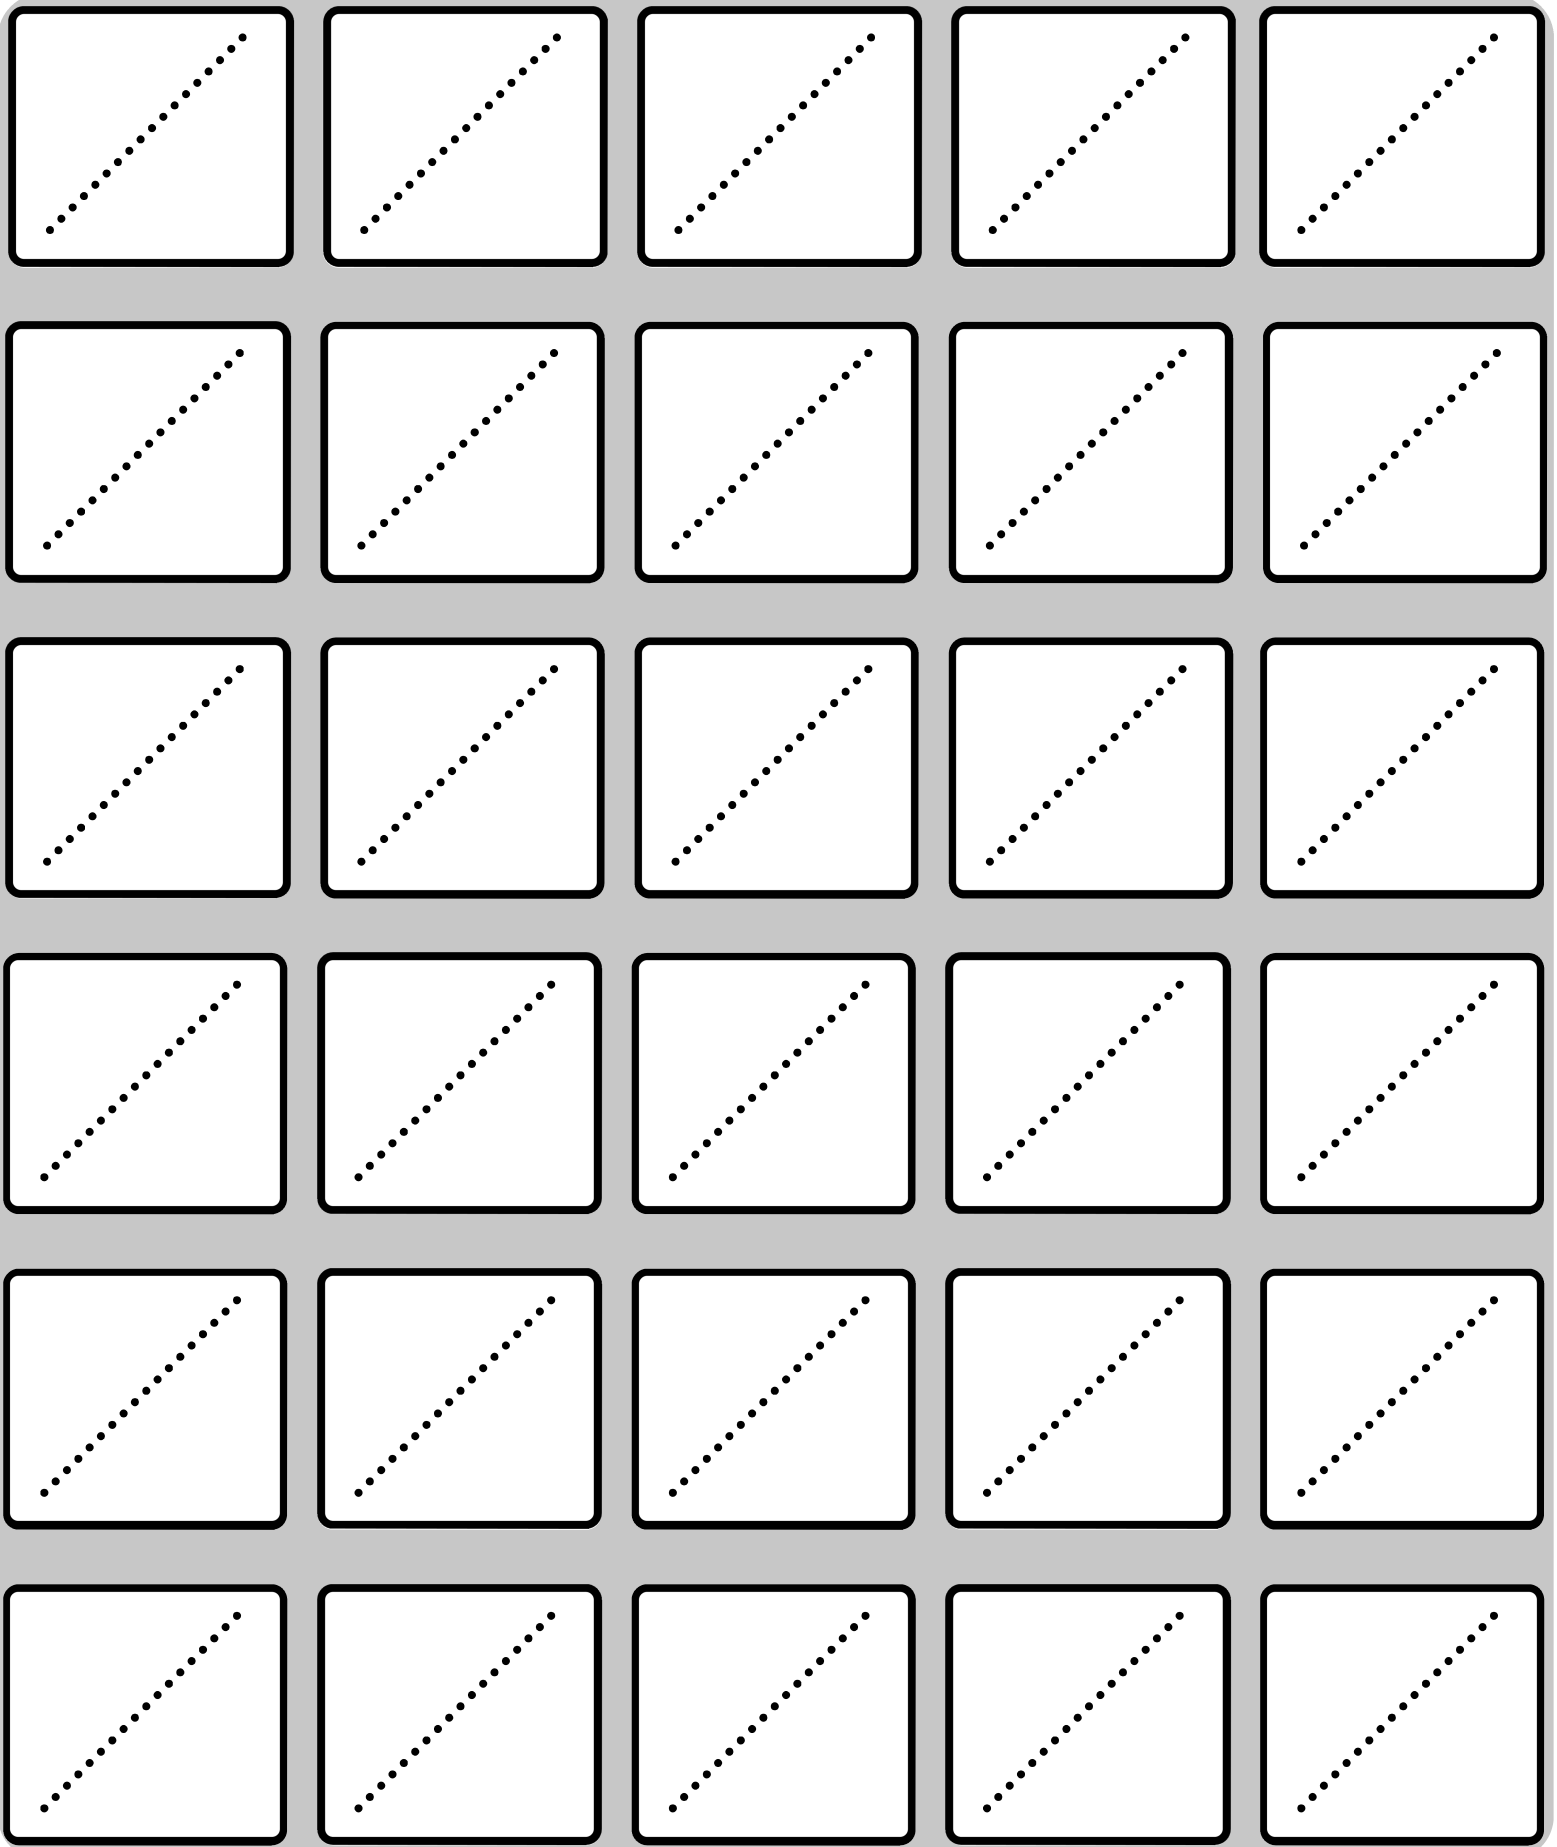

This is also called a diagonal line.
It does not go down to the right.
This diagonal line goes down to the left.

Trace the lines below. Start at the top of the line and go down to the left.

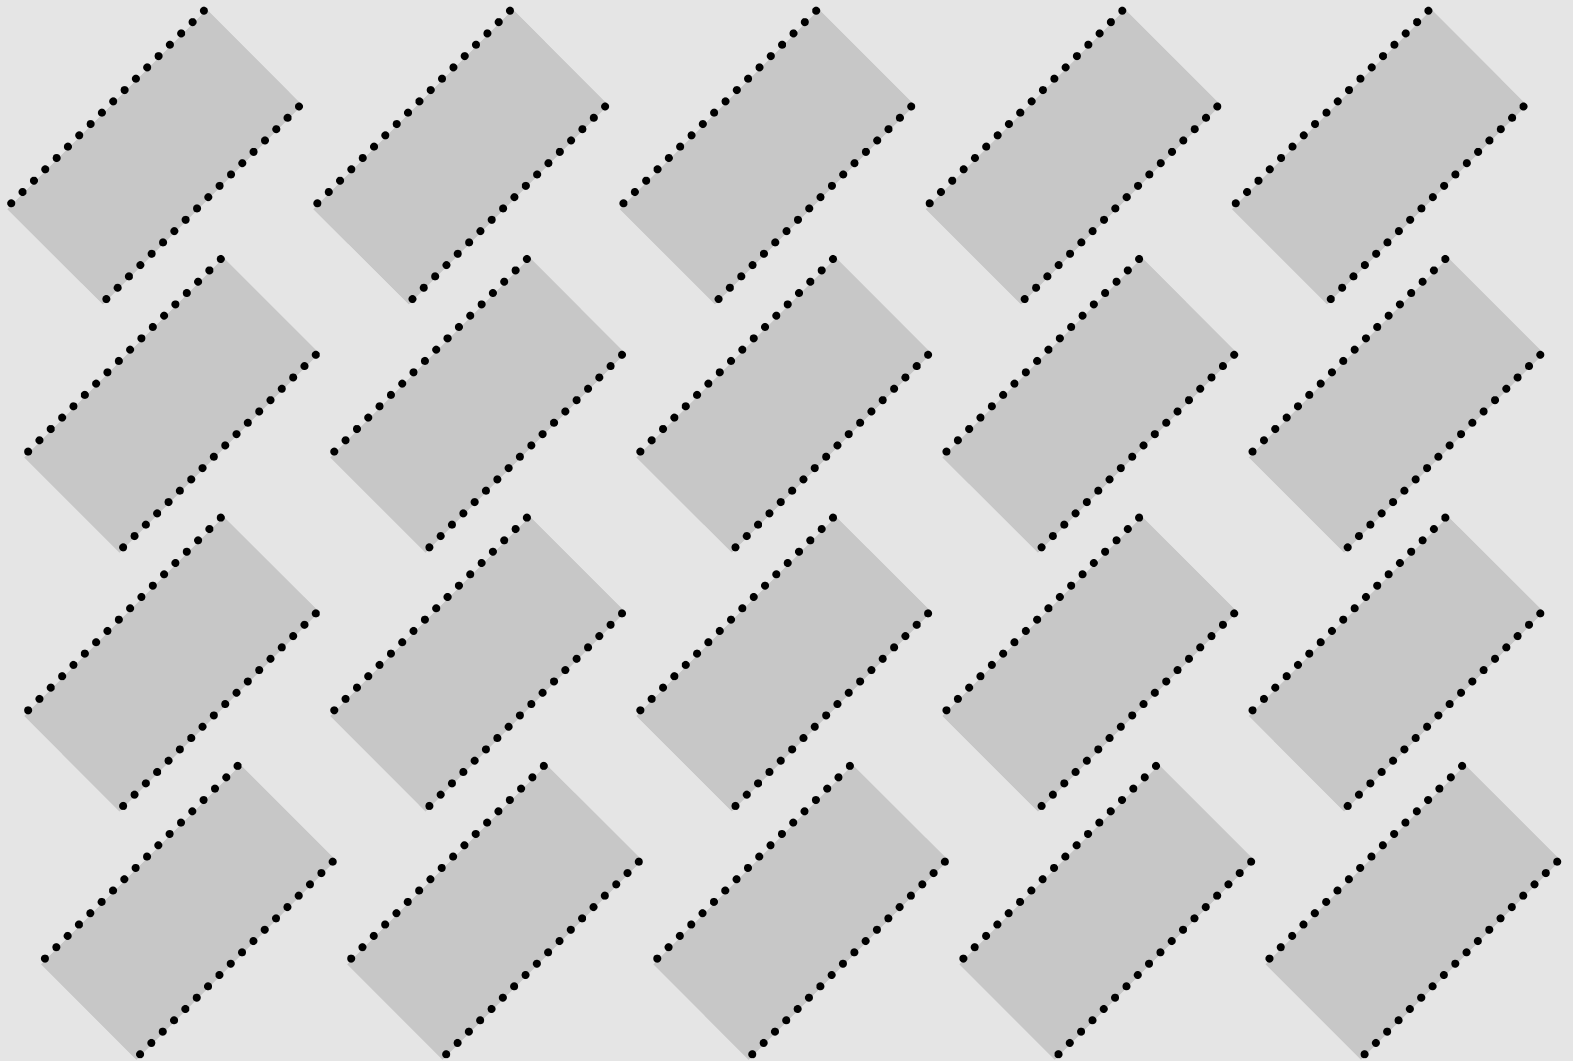

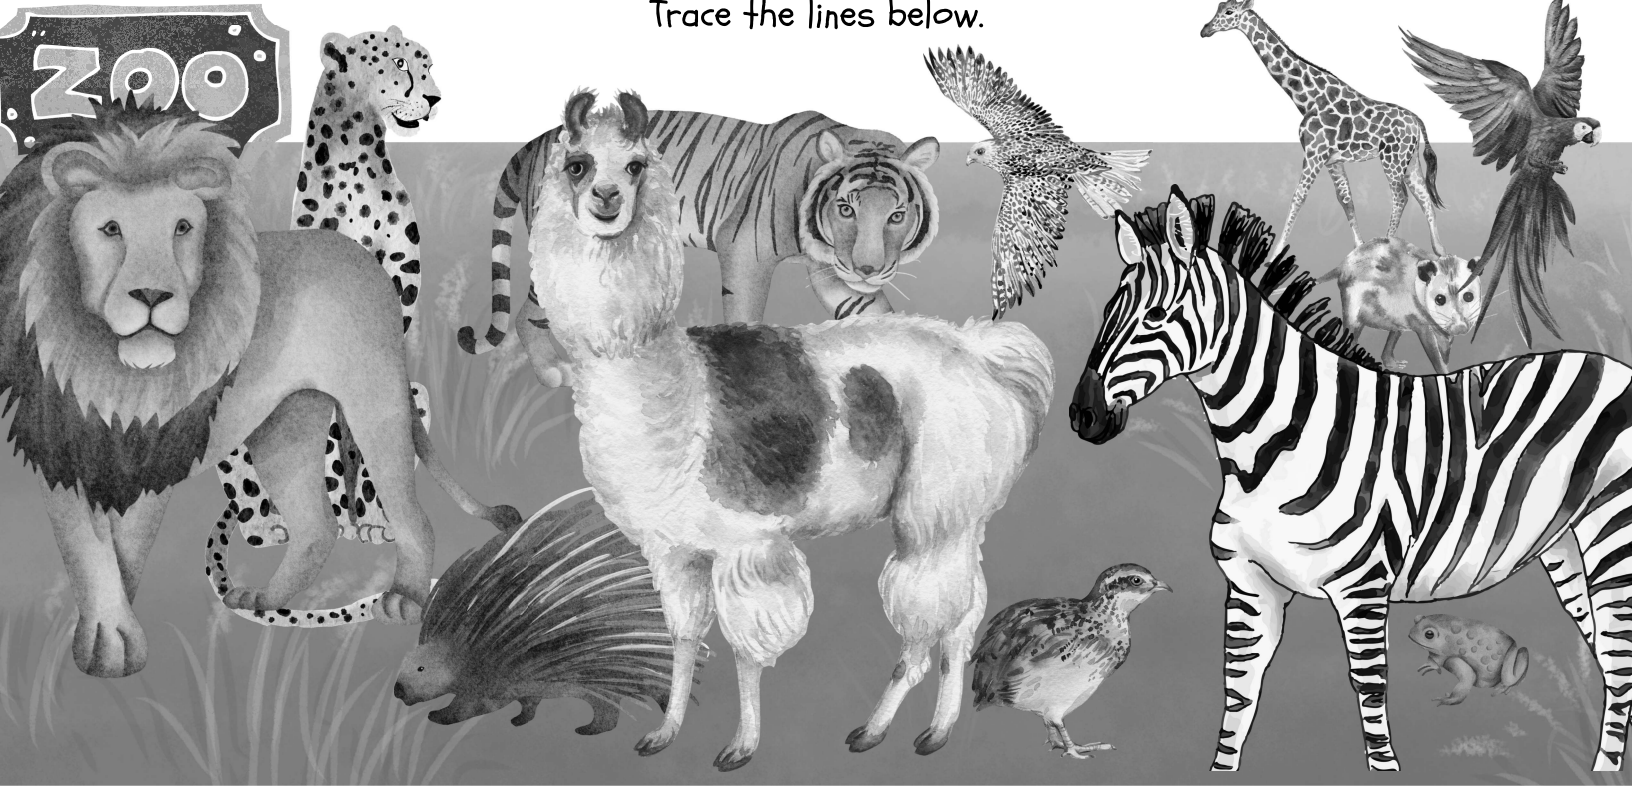

Good job! Keep going!

The new zoo in town is making walking paths for visitors. Will you help them with their project?

Trace the lines below.

Oh, no! The zebra escaped from the zoo! Will you help Mr. Rogers, the zookeeper, find him?
Trace the lines below.

Fantastic! Now let's draw a line from the top dot down to its matching bottom dot!

The image displays a 7x5 grid of 35 identical boxes. Each box is a white square with a black border. Inside each box, there is a solid black dot in the top-right corner and another solid black dot in the bottom-left corner. This layout is designed for a child to draw a vertical line connecting the two dots in each box.
